

Sharing Your Accounts in Arbiter

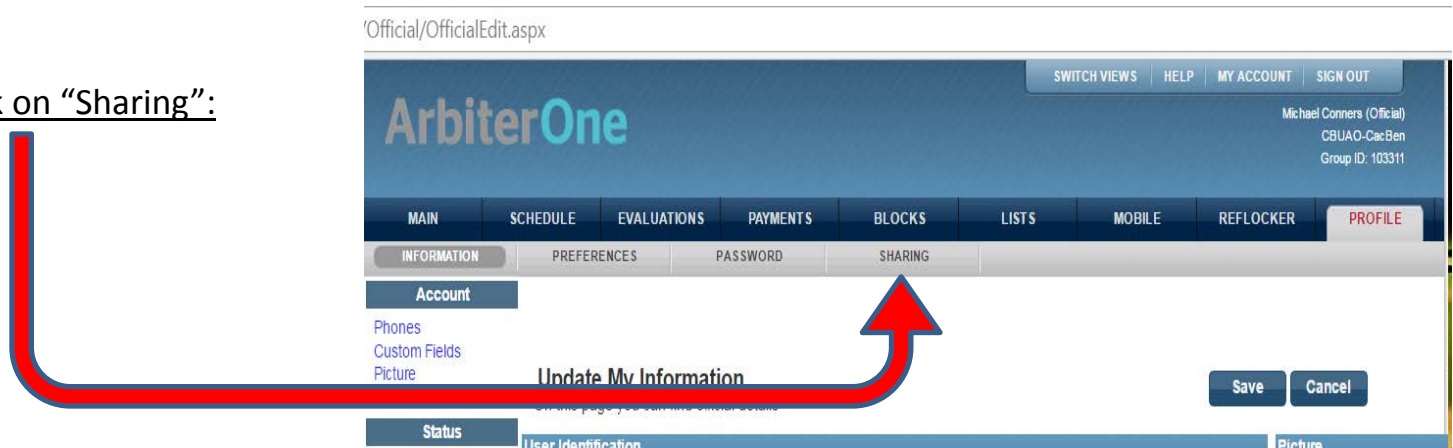

Arbiter allows you to set up your schedule so all of your assigners can not only see if you are working for someone else at a particular time, but also the location and times of the games you are working. This can be very helpful for an assigner and can help them get you extra work by doubling you up at the same field or another nearby location.

STEP 1: Log into your Arbiter Sports account

STEP 2: Open up your "Profile"

STEP 3: Click on "Sharing":

STEP 4: Click on the boxes next to the game information you'd like to share. All boxes are recommended

STEP 5: Click on the boxes of the groups whose assignments you wish to share from and all the boxes of the assigners you want to share those assigned games with. Again, all are recommended.
